Q.4 (A) Short Note. (Any one)

(05)

1. Save Tree :::Trees are our best friends. They help us in many ways in spite of that people are cutting trees for the different purpose. But at the same time no one is growing trees. As a result we are facing problems of soil erosion, floods, and droughts since forests play a vital role in supporting life on the earth. The Government has taken steps that will regenerate this important resource quickly. We can preserve our forests by afforestation. The Government started programme such as Social Forestry Movement and Vanmahotsavas. A Programme for Every Child a Tree was started in which children are encouraged to plant trees and care for them.
