**Q.3. Write Short Question****(14 Marks)****1. Describe the incident that inspired Manjula to enter the contest**

Ans:- Manjula was disheartened and gave up painting. When she read in newspaper cutting about Rich Belanger, who had lost his feet in a train accident, but he overcome all odds and became a well known football player in Nashau team it inspired Manjula to fight back and enter the painting contest.

**2. Do you think, celebrating festivals to honour the girl child is a good idea? Why?**

Ans:- Yes, it is a good idea. In some parts of India, only boys are heir to property and business owned by the family. Therefore, the expecting parents prefer a baby boy to a baby girl. In some cultures, the birth of a boy celebrated in a big way whereas the birth of a girl child brings no cheer. Female foeticide –the act of killing a baby girl before she is born, is a common practice in some part of Punjab and Haryana. Celebrating festivals to honour the girl child will be helpful to undo gender bias and gender inequalities.

**Q.5 (A) Now read the outlines given here and write interesting story.**

**(04 Marks)**

On a dark and dreary night, a blind man walks down the street carrying a burning lamp. Everyone who saw him was confused and wondered why he was carrying lamp but no one bothered to ask the reason. Two passers by were so amazed to see the blind man that they mockingly asked him, " You are blind, than what purpose does this lamp serve you? You don't need any light". But the blindman was not at all surprised at their question and politely replied, "Its not for me, it is for the use or careless fools and ignorant people who walk carelessly and collide with me, then they curse me blindness for the collision." Now, the two passers by understood that the blind man was very intelligent. He carried the lamp to save himself from collision because people do not make use of their eyes that God has gifted to them.

**Q. 5 (B) Write an essay.**

**(05 Marks)**

### **1. My Best Friend**

Friends are very special in a person's life because our friends are the ones who stand by us when we need them the most. A good friend is not one who agrees to his friends in everything that he/she says or does, instead a good friend is the also a good critic who has the courage to tell his friend whenever he/she is wrong. Friends guide us and support us willingly whenever we need them. They are the ones with whom we share all our joys and sorrows.

I have many friends with whom I enjoy a lot but Abhinav is my best friend. He is very good boy and is very polite and gentle towards everyone. What I like most about him is his enthusiasm and his 'never say die' attitude towards life. He is extremely optimistic and never gives up. Whenever I fail in any of my attempts and feel low, he is the first one to cheer me up and fill me with the courage and enthusiasm to start my effort afresh. No matter what the problem is and no matter how difficult it is to cope up with. He will always have a solution to the problem. He is a constant source of positive energy to people around him. He is because of this optimism that he is lovely by all. Not only this, he is also very intelligent in studies as well. He is sincere and works with great concentration. This make him a favourite to all our teachers.

He is always there to help his friends and everyone around him. I wish someday I will also be like him optimistic and highly enthusiastic. The beauty of friendship lies in the fact even after small fights, everyone comes together to be one.

### **2. Environmental pollution**

Contamination of the various components of the environment, like air, water or soil is known as the environmental pollution and no one other than man is responsible for the deteriorating condition of the environment. Nature has bestowed upon us all its blessing in the form of various resources but we use these natural resources indiscriminately and cause environmental pollution.

We are developing and so the life style of people is also changing. This is resulting in the increased number of industries, vehicles and various other things that either require the rich forest wealth or run on fuels. Air is contaminated because of the poisonous smoke produced by the vehicles and factories, resulting in respiratory disorder. Water gets contaminated because of the industrial waste thrown into the rivers. It is so bad that the big industrialists don't even bother to treat the poisonous waste before throwing it into the rivers. Aquatic life is seriously threatened because of such practices. Nuclear waste is closed in chambers and thrown deep in to the soil leading to the destruction of the fertility of the soil.

These are just a few major reasons that cause environmental pollution. The problem is very big because nobody is aware of the fact that our environment is getting polluted and contaminated because of our own negligence and ignorance.

If we want our future generation to live and breathe in healthy environment, we will have to stop polluting the environment. We will have to take a pledge that we will never ever pollute the environment and take every step to make it healthy and green.
