My Dream Robot

My charismatic 007 could be my dream robot. It would be tiny weighing just 1 kg. It would be easy to carry because, we can assemble and disassemble it very easily. you can call it portable human like friend. It can do all my household chores. Moreover, it could help me in my school homework and remind me of my fixtures. It can share my feeling well proper expressing befitting to the present situations

It will be extremely obedient but it can warn me against any illegal or improper action. It can also guide me properly or scold me like my well-wisher guide. It can think separately, logically and fruitfully. only after it has tested that the master is suitable or proper for his thinking and choice, it will go with him. The greatest thing is that it costs comparatively less!

How friendly and human it is !
