24. Benefits of Solar power.

Solar power is cheaper than kerosene, which can cost almost double in a month. It is smokeless source of light, which comes with added benefits to customer's health. Solar power saves environment because there is no pollution. New businesses have also started emerging because of solar power. In one village, customers are using the light to weave saris by night. In another, one man now has a night business of making plastic tablecloth. The people of the village are happy because they have light while they cook and eat. Besides this, the children are also studying more.

25. Dr. Mackey's views on Sharing:

Mrs. Suhani Mehta's daughter enjoys her studies but she does not share anything about school and studies with her parents. According to Dr. Mackey, if sharing is missing both children and parents are responsible. Sharing is the glue that binds family together. Parents must understand that teenagers find it uncomfortable to share all details related to their lives. So parents must consider this and decide their response to their sharing. Negative response and preaching discourage children. Children must also read the intention of parents. Not sharing anything may lead to social problems.
